

FIRE SAFETY PLAN & WHMIS SECURITY BOX INFORMATION

Mississauga property owners and business operators should be aware that the approval procedure for mandated Fire Safety Plans, require that you make a copy of the approved Fire Safety Plan available on site for responding fire department crews.

City of Mississauga By-law #289-97 prescribes the way the Fire Safety Plan (and WHMIS information, where applicable) is to be supplied to this Department. Please refer to the following link to reference a copy of the bylaw; <http://www.mississauga.ca/file/COM/newsecuritybox.pdf>

In cases where a security box is required to be installed at your facility, you may wish to contact the following companies who supply an acceptable box with the approved locking system specific to Mississauga;

Mikor Metal Products
5972 Ambler Drive
Mississauga, Ontario
L4W 2N3

OR

Safety Media Inc.
10 Meteor Drive
Toronto, Ontario
M9W 1A4

Tel: 905-282-9300

Tel: 416-675-6675

The security box is to have the words "Fire Safety Plan" clearly indicated on the face of the box. This wording can be added to an existing WHMIS box if already present at your location.

Please contact our office at 905-896-5908 to arrange a site visit to select a suitable mounting site prior to installation.

Once the security box is installed, the approved Fire Safety Plan (and WHMIS information, where applicable) is to be maintained, updated regularly and available for use by fire fighting crews responding to emergencies at your facility.

Please feel free to contact the Mississauga Fire Prevention Division at 905-896-5908 for additional information or assistance.
