If you have multiple devices, do not sign up for multiple Adobe IDs. Simply create one Adobe ID and use it for all devices.

- 11. Click on Help, Authorize Computer...

12. If you have an Adobe ID already enter it with your password and click Authorize.

#### Return an eBook Early

There are a limited number of items you can borrow from the eLibrary Download Centre at one time. To help avoid this limit, and to make titles you are finished with available to others, it is recommended that you return eBooks earlier than the due date.

Note that not all formats can be returned early.

If you do not return an eBook before the due date the title will simply say "expired".

Expired titles cannot be opened. Therefore it is recommended that expired titles be deleted.

To return an eBook early:

- 1. **Start Adobe Digital Editions** on your computer. The easiest way to do this is by clicking the Adobe Digital Editions icon that was placed on your desktop.
- 2. Enter Library view if you are not already. Library view will have the covers of all the downloaded titles on the screen.

To return to Library view from reading view you can click on the Library link at the top left hand corner of Adobe Digital Editions.

3. Right-click on the cover of the title you wish to return and select Return Borrowed Item.

If prompted if you're sure click **Return**.

#### Delete an eBook

Deleting an eBook is useful if the eBook has expired or if you want to remove it from your Windows PC but not return it – perhaps because you are still reading the eBook on another device.

To delete an eBook:

- 1. **Start Adobe Digital Editions** on your computer. The easiest way to do this is by clicking the Adobe Digital Editions icon that was placed on your desktop.
- 2. Enter Library view if you are not already. Library view will have the covers of all the downloaded titles on the screen.

To return to Library view from reading view you can click on the Library link at the top left hand corner of Adobe Digital Editions.

3. Right-click on the cover of the title you wish to delete and select Remove From Library.

If prompted if you if you are sure you wish to delete the eBook click **Remove**.

#### Place a Hold

Like physical books, eBooks can be placed on hold if they are not available for borrowing. To place an eBook on hold:

- 1. Visit the eLibrary Download Centre.
- 2. Locate an eBook that is not currently available. To locate an unavailable eBook or AudioBook look for a grey (instead of a black) icon of a Book or Headphones, and click on the cover.

3. Click Place a Hold and the title will be checked out to you.

Login with your library card if necessary.

4. Specify which e-mail address you would like to be notified at when the hold comes in and click Place a Hold.
