

Your Achievement!

You have been nominated for a Corporate Award. The following is a brief synopsis of the nomination submitted on your behalf.

"The Community Services Department initiated the development of an Older Adult Plan as a "Moving Forward" priority. The goal of the Older Adult project team is to develop a proactive Older Adult plan that prepares Mississauga to respond to future demand for older adult programming and services over the next 20 years. Further, to anticipate the impact of a changing demographic overall on the City and to provide a framework to guide future action steps for the City.

Individuals on this team rose to the challenge of never having worked together before and pulled together to get to know each other, share workloads, develop a common vision for the project and then carry it out within tight timelines. This team did an exemplary job of creating a positive interdepartmental experience where All team members contributed in all aspects of the process."
